

I International Congress on - INSULARITY AND BIODIVERSITY -

11-13 May 2012 Palermo, Italy

Sponsored by:

Assessorato al territorio e ambiente
della Regione Siciliana

Orto Botanico
Università degli studi di Palermo

Museo Naturalistico Francesco
Minà Palumbo di Castelbuono

Parco delle Madonie

Casamuseo Matteo Sercia di
Favignana

With the support of:

Ordine dei Dottori Agronomi
e dei Dottori Forestali
della Provincia di Palermo

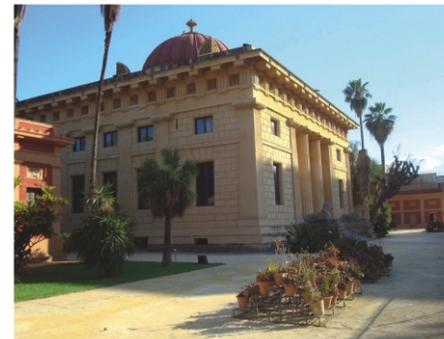

Assessorato risorse agricole
e alimentari Regione Sicilia

Biodiversity Journal

PRESENTS
I INTERNATIONAL CONGRESS ON

INSULARITY AND BIODIVERSITY

11-13 May 2012
Palermo, Italy

CONGRESS PROGRAM

Friday 11th May 2012, at 9.00
Aula Lanza Orto Botanico
Via Lincoln, 2b - 90133 Palermo

Registration

I SESSION, at 09.00

Public Administration tools for the preservation of biodiversity

Greeting to the participants and opening remarks
Lawyer Sebastiano Di Betta - Assessore al territorio e ambiente Regione Sicilia
Prof. Francesco Maria Raimondo - University of Palermo

Dott. Giovanni Arnone - Dirigente Generale Dipartimento dell'ambiente della Regione Sicilia
Regional policies for the protection of natural heritage in Sicily - strengths and weaknesses

Dr. Francesco Gendusa - Dr. Marcello Panzica La Manna
Dipartimento dell'ambiente della Regione Siciliana
The Natura 2000 Network in Sicily

Dr. Giuseppe Calagna - Dipartimento Interventi Strutturali per l'agricoltura - Assessorato risorse agricole e alimentari Regione Siciliana
The European financial instrument for the Environment: LIFE

Dr. Rosaria Barresi - Dirigente Generale Dipartimento Interventi Strutturali per l'agricoltura - Assessorato risorse agricole e alimentari Regione Siciliana
The role of agricultural policies in environmental protection

Closing Session

Dr. Elio D'Antrasi - Assessore delle risorse agricole e alimentari Regione Sicilia

Lunch, at 13.30

II SESSION, at 15.00

Greeting to the participants and opening remarks
Prof. Attilio Carapezza - Presidente della Società Siciliana di Scienze Naturali
Dr. Agr. Aurelio Scavone - Presidente Ordine dei Dottori Agronomi e dei Dottori Forestali della provincia di Palermo

Insularity and floristic diversity

Chair: Prof. Francesco Maria Raimondo - University of Palermo

Saturday 12th May 2012

Aula Nicolosi Castello Utveggi
Via Padre Ennio Pintacuda, 1 - 90142 Palermo

III SESSION, at 09.00

Greeting to the participants and opening remarks
Prof. Adelfio Elio Cardinale - Presidente del CERISDI
Dr. Ignazio Sparacio - Biodiversity Journal M.E.

The evolution of animal species and insularity

Chairs: Dr. Roberto Poggi - Museo civico di storia naturale di Genova
Prof. Bruno Massa - University of Palermo; Prof. Giorgio Sabella - University of Catania

Lunch, at 13.30

IV SESSION, at 15.00

Biodiversity of the present and past euro-mediterranean fauna

Chair: Prof. Rafael La Perna - University of Bari

Sunday 13th May 2012, at 09.00

Museo Naturalistico Francesco Minà Palumbo - Via Roma n. 72, Badia (ex Convento di S. Venera) - 90013 Castelbuono (Palermo)
Prof. Pietro Mazzola - Director of Museum

Casamuseo Matteo Sercia - via S. Caligarsia, 10 - 91023 Favignana (Trapani)

Lunch, at 13.00

CLOSING CONGRESS

FOR INFO AND SUBSCRIPTION

Dr. M. Stella Colomba - University of Urbino, B.J. Chief Editor
Fabio Liberto, B.J. Secretary - biodiversityjournal@gmail.com

The conference has been accredited by the Association of Doctors of Agronomy and Doctors of Forestry of the province of Palermo, therefore, the certificate of participation to the seminar allows the acquisition of formative credits.

See you at the next Congress!

MAY 11th-13th, 2012 - PALERMO (ITALY)

Sula nebauxii excisa Todd, 1948 - Galápagos Islands

Michele Bellavista. The Galápagos Islands	I-II	Giorgio Sabella, Fabio M. Vigliani & Ettore Petralia. Catalogue of malgasy genera of Pselaphinae Latreille, 1802 and first data on the diversity of Pselaphid beetles population in the Amber Mountain National Park, Northern Madagascar (Coleoptera Staphylinidae)	429
Roberto Poggi. Introduction: The importance of insularity and biodiversity	263	Rinaldo Nicoli Aldini, Agostino Letardi & Roberto A. Pantaleoni. State of the art on Neuropterida of Sicily and Malta	445
Francesco Maria Raimondo. Preface. Flora and insular diversity	265	Andrea Corso, Ottavio Janni, Maurizio Pavesi, Michael Sammut, Arnold Sciberras & Michele Viganò. Annotated checklist of the dragonflies (Insecta Odonata) of the islands of the Sicilian Channel, including the first records of <i>Sympetrum sinaiticum</i> Dumont, 1977 and <i>Pantala flavescens</i> (Fabricius, 1798) for Italy	459
Alessandro Minelli. Dream islands and island dreams	267	Ivan Rapuzzi. Preliminary notice on the genus <i>Carabus</i> Linnaeus, 1758 (Coleoptera Carabidae) of the islands of Peter the Great Gulf in the far East of Russia, Primorski province, Vladivostok area with description of a new subspecies	479
Genuario Belmonte. Species richness in isolated environments: a consideration on the effect of time	273	Michele Bellavista & Ignazio Sparacio. Forest-ecological aspects of the genus <i>Allardius</i> Ragusa, 1898 (Coleoptera Tenebrionidae) in Sicily and Sardinia	487
Giuseppe Garfi & Stéphane Buord. Relict species and the challenges for conservation: the emblematic case of <i>Zelkova sicula</i> Di Pasquale, Garfi et Quézel and the efforts to save it from extinction	281	Agatino M. Siracusa, Veronica Larosa & Ettore Petralia. Presence of black rat <i>Rattus rattus</i> (Linnaeus, 1758) (Mammalia Rodentia) and possible extinction risk for micro insular populations of <i>Podarcis sicula</i> (Rafinesque, 1810) (Reptilia Lacertidae): the example of Lachea islet (Sicily, Italy)	493
Roberto A. Pantaleoni, Carlo Cesaroni, C. Simone Cossu, Salvatore Deliperi, Leonarda Fadda, Xenia Fois, Andrea Lentini, Achille Loi, Laura Loru, Alessandro Molinu, M. Tiziana Nuvoli, Wilson Ramassini, Antonio Sassu, Giuseppe Serra, Marcello Verdinelli. Impact of alien insect pests on Sardinian landscape and culture	297	Salvatore Giacobbe. Biodiversity loss in Sicily transitional waters: the molluscs of Faro Lake	501
Pietro Lo Cascio & Salvatore Pasta. Lampione, a paradigmatic case of Mediterranean island biodiversity	311	Danilo Scuderi & Bruno Amati. Rediscovery and re-evaluation of a “ghost” taxon: the case of <i>Rissoa galvagni</i> Aradas et Maggiore, 1844 (Caenogastropoda Rissoidae)	511
Gianniantonio Domina, Giuseppe Bazan & Francesco Maria Raimondo. Vascular flora evolution in the Soqotra Archipelago (Indian Ocean)	331	Agatino Reitano & Danilo Scuderi. New observations on the taxonomy, biology and distribution of <i>Tricolia landinii</i> Bogi et Campani, 2007 (Gastropoda Vetigastropoda)	521
Gianniantonio Domina, Pasquale Marino, Vivienne Spadaro & Francesco Maria Raimondo. Vascular flora evolution in the major Mediterranean islands	337	Simone Cianfanelli, Gianbattista Nardi & Marco Bodon. A new record for the Italian fauna: <i>Plagyrona placida</i> (Shuttleworth, 1852) from Sardinia and Southern Italy (Gastropoda Pulmonata Valloniidae)	527
Errol Véla & Daniel Pavon. The vascular flora of Algerian and Tunisian small islands: if not biodiversity hotspots, at least biogeographical hotchpotchs?	343	David Cilia. Terrestrial gastropods of the minor islets of the Maltese Archipelago (Mollusca Gastropoda)	543
Pietro Mazzola, Rosario Schicchi & Sebastiano Ciccarello. Biogeographical notes of geophytes in the Sicilian Archipelago	363	Agatino Reitano, Fabio Liberto, Salvatore Giglio, Rosario Grasso & Maria Teresa Spena. Terrestrial molluscs from the R.N.I. “Grotta Conza” (Palermo, Sicily) (Gastropoda Architaenioglossa Pulmonata)	555
Angelo Troia. Insular endemism in the Mediterranean vascular flora: the case of the Aeolian Islands (Sicily, Italy)	369	Maria Stella Colomba, Fabio Liberto, Agatino Reitano, Walter Renda Armando Gregorini & Ignazio Sparacio. Molecular studies on the genus <i>Medora</i> H. et A. Adams, 1855 from Italy (Gastropoda Pulmonata Clausiliidae)	571
Vincenzo Bertolini, Anne Damon, Javier Valle Moral & Angel Natanael Rojas Velázquez. Distribution and ecological patterns of orchids in Monte Pellegrino Reserve, Palermo (Sicily, Italy)	375		
Jeffrey Sciberras, Arnold Sciberras & Luca Pisani. Updated checklist of flora of the satellite islets surrounding the Maltese Archipelago	385		
Arnold Sciberras & Jeffrey Sciberras, 2012. Flora of “U Briantinu”, a satellite stack of Panarea Island, Aeolian Archipelago (Sicily, Italy)	397		
Pasquale Marino, Giuseppe Castellano & Rosario Schicchi. Biodiversity and evolution of the dendroflora in the main islands of Mediterranean	401		
Andrea Corso, Marco Gustin & Piero Ferrandes. Annotated checklist of the birds from Pantelleria Island (Sicilian Channel, Italy): a summary of the most relevant data, with new species for the site and for Italy	407
